| **Built** | 2003 |
| **Material** | Steel |
| **Engine(s)** | Vetus Deutz DT43 - 106 hp |
| **Price** | Sold |

Offered for sale this unique Kuster A-38! "De Rode Wolf" ( formally "Helena" ) has been in service since 2003 and is well maintained by the owners. It is in excellent condition and ready to sail.

The Vetus Deutz DT43 with 106 hp provides the propulsion. Mooring is very easy with the hydraulic bow and stern thruster operated from the inside and / or outside steering position. The Bruce anchor is lowered and raised with the hydraulic windlass. Due to the foldable stainless steel mast, there is a low clearance height. In addition to the presence of a complete navigation system, the presence of anti-slip mats on the deck and the 4 onboard camara's with recording function give a feeling of safety, even when you are not there!

The cockpit tent offers - in addition to an extra living space - lots of light and protection against rain and sun. Mosquito net is incorporated for insect-free ventilation. Sun screens keep out the heat in the cabin. A swim platform with 4 steps bathing ladder increases the swimming pleasure.

The necessary energy for an independent and comfortable life on board is provided by 3x 135 W solar panels, an extra dynamo and the generator. The Mastervolt combi Ultra 12 / 3000-100 takes care of all this and ensures that the 2x 225 Ah AGM batteries are always charged. Extra radiators, LED lighting and a TV / DVD combination ensure cozy evenings.

In 2019-2020, the ship has undergone a complete refit! Among other things the hull has been completly repainted. The ship can soon be viewed by appointment in our harbor in Harlingen. For more information, please contact info@north-line.nl or via 0031 517 391054.
